

Kronos Consulting Services

Workforce Management - Beyond Time and Attendance

HyBridge Solutions provides leadership, knowledge, and experience to ensure every Kronos upgrade, implementation, or optimization is successful and exceeds our clients' expectations. A Human Capital Management system is not just a time clock or attendance solution, but a resource management tool that enables companies to better manage their most valuable asset, their employees. HyBridge Solutions recognizes that in order to effectively manage your staff, Kronos must be aligned and integrated with each entity's business process.

“HyBridge Solutions’ technical and application expertise provided a seamless integration that exceeded our expectations. We look forward to working with the HyBridge team on future Kronos initiatives.”

Anthony Minori, WakeMed Health and Hospitals
